

## APL Case Study

Project: **Innovation Centre, Marlborough College**

Date: **2020**

Background:

- APL were specified by the architect at an early stage in the project, providing a number of samples with different perforations and in different colours
- APL's engineering team designed a bespoke aluminium sub-frame to minimise any window obstruction

Systems:

- 1,600m<sup>2</sup> of AP45HR-Airwall™ perforated profile in aluminium with a Class 2 PPC coating to both sides
- Bespoke-design APL aluminium sub-frame coloured-matched to the Airwall™
- All fixings and accessories

Building Location:

- Swindon
